DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 12:

The primary reason for the allowance of claims 1 and 12 is the inclusion of a resistive element coupled in series with a piezoelectric sensor and an interface that provides an output indicative of an impedance based upon the processed signal and the structural condition of the item. It is these features found in the claim, as they are claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes this claim allowable over the prior art.

Claims 2-11, 21 and 25 are allowed due to their dependency on claim 1.

Claims 13-23 and 26 are allowed due to their dependency on claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
